THE
IMA PROCESS

Define the scope of the project. Create list of priorities and timeline for project, while empathizing with the community collaborating as partners.

Research the community and begin the creative process by finding inspiration to identify a visual style. Begin creative process in close collaboration with partners.

Present to community partners, constituents, and community voices that are part of the team. Implement the materials in print web, and social.

| Define | Assess | Research | Design | Deliver |

Visit the community partner site to evaluate the current assets and unique characteristics. Consider budgets for materials to be produced.

Create visual elements that are sustainable to update and maintain for community partners, volunteers, and future student led design teams.

DEFINE

The design team spent the start of the semester defining the scope of the project, researching and meeting with the community partner, and creating a timelines based on the needs of the client. With the client having upcoming conferences and events, it was essential for the design team to stick to a strict schedule when working.

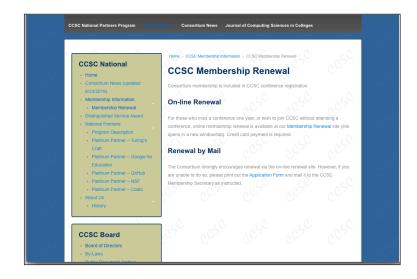

Presence and sustainability were at the core of this project. How could we as a design team accurately present CCSC as a national and regional organization while allowing for sustainable upkeep after we are finished.
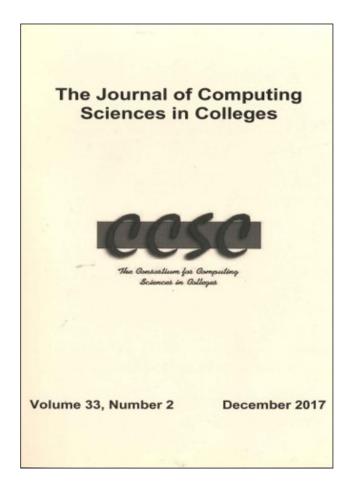

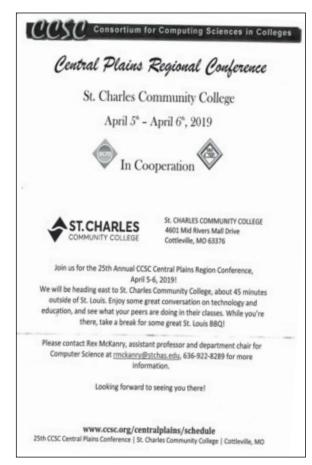

ASSESS

After identifying the scope of the project with our community partner, we visited them on-site and met with members of this nonprofit to evaluate their current assets.

ASSESS

After identifying the scope of the project with our community partner, we visited them on-site and met with members of this nonprofit to evaluate their current assets.
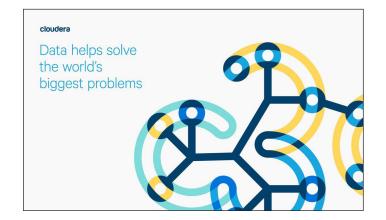

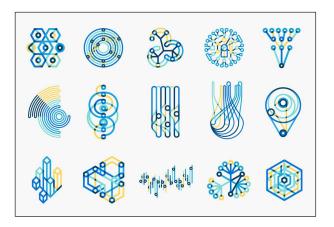

RESEARCH

Our design team prioritizes research as the first step in the design phase. This phase is where we begin collaborating closely with our community partners to identify a style for our design work.
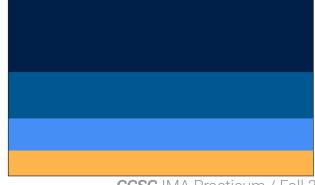

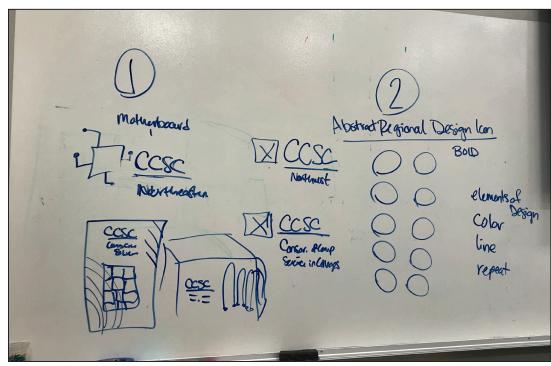

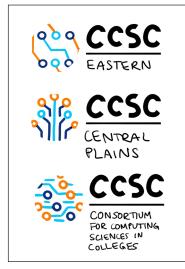

DESIGN

The inspiration for the new identity was focused on creating a cohesive, consistent brand for all of the regions. The original brand was inconsistent and was representative of each individual region. This new identity was created to show the community that CCSC represents across all regional branches.
